

DOCKING DEVICE CLASS SYSTEM AND METHOD

La Vaughn F. Watts, Jr.

ABSTRACT OF THE DISCLOSURE

5 A method including but not limited to detecting a docking device class circuit
present on a bus, and obtaining a description of at least one device in a docking
station from the docking device class circuit. In one embodiment the method further
includes but is not limited to controlling the at least one device via commands
appropriate to the bus. In one embodiment, circuitry is utilized to effect the
foregoing-described method. In addition, a related docking station having a docking
10 device class circuit is described.
